AMENDED CLAIMS

IAP11 Rec'd PCT/PTO 17 AUG 2006

[received by the International Bureau on 26 September 2005 (26.09.05);
original claims 1-34 replaced by new claims 1-36 (1 page)]

+ STATEMENT

wherein said polyorganosiloxane is present at a level of at least about 35% by weight, based on the total weight of said fatty material, said polyorganosiloxane, said polyolefin, and said bleaching agent; and

wherein said substituents comprise at least about 5% by weight, based on the total weight of said substituents, of non-terminal hydroxyl groups.

32. The composition of claim 31 wherein the discrete, individual polymer particles are polytetrafluoroethylene (PTFE).
33. A method of treating a textile, comprising the step of:
contacting said textile with a composition of claim 30.
34. A method of treating a textile, comprising the step of:
contacting said textile with a composition of claim 31.
35. A composition, comprising:
- a. at least one fatty material;
 - b. at least one polymer selected from the group consisting of water-dispersible polyolefin, water-soluble polyorganosiloxane having substituents, and water-dispersible polyorganosiloxane having substituents; and
 - c. discrete, individual polymer particles that are selected from the group consisting of polytetrafluoroethylene (PTFE), polyvinyl acetate (PVA), polyvinyl acetate/acrylic copolymer (PVA/a), and combinations thereof.
36. The composition of claim 35 wherein said polymer particles are polytetrafluoroethylene.

STATEMENT UNDER ARTICLE 19 (1)

In response to the International Search Report dated July 25, 2005, Applicants submit the following amendment under Article 19. The sheet numbered 37 is enclosed to replace originally submitted sheet 37 of the claims.

Claims 35 and 36 have been added. The new claims read as follows.

35 (new). A composition, comprising:

- a. at least one fatty material;
- b. at least one polymer selected from the group consisting of water-dispersible polyolefin, water-soluble polyorganosiloxane having substituents, and water-dispersible polyorganosiloxane having substituents; and
- c. discrete, individual polymer particles that are selected from the group consisting of polytetrafluoroethylene (PTFE), polyvinyl acetate (PVA), polyvinyl acetate/acrylic copolymer (PVA/a), and combinations thereof.

36 (new). The composition of claim 35 wherein said polymer particles are polytetrafluoroethylene.

The basis for these claims can be found, for example, in Example 16 spanning pages 30 and 31. The remaining claims are unchanged. Therefore, upon entry of this response, claims 1-36 will be pending in the application. No new matter has been added.
